

# FUTURE LEADERS CLASS OF 2022

## KELLY SHEK

MEDIA AND COMMUNICATIONS OFFICER  
RESOLVE FOUNDATION

Kelly is a Media and Communications Officer from a local NGO, Resolve Foundation, which empowers emerging community leaders to build a more diverse and equal society for everyone to live in. With a determined mind that all of us have the power to make Hong Kong a more inclusive place, she supported individuals from the marginalized communities who are passionate about different social issues on the theme of race, gender and disability to create bigger impacts with their stories.

In the past, she is experienced in communication and digital storytelling since she has been a fixer and translator. She has also worked with journalists from different French media organizations including local newspapers, radio stations, television channels, etc, as well as devoted a lot of time doing voluntary work for community centres. She believed through education and empowerment, the voices of the underprivileged and marginalized can be heard. In the program, she hopes to gain different skill sets and learn from others to make a difference and further her work in promoting diversity, equity and inclusion in Hong Kong.
