

AmCham Women of Influence Awards 2020

Distinguished Judge

Dr. Cathy N.P. Lui

OPER Technology Limited

CEO

Dr. Cathy N.P. Lui has found her passion in biomedical science when studying for her Bachelor's degree at Hong Kong Baptist University. After obtaining a PhD degree in Neuroscience from HKBU she explored the utility of nano materials on biomedical applications at Northwestern University, U.S with a post-doctoral fellowship granted by American Parkinson's Disease Association.

After an early career as an academic researcher, Dr. Lui became an entrepreneur in biotechnology, finding commercial applications to her scientific and technological research.

Dr. Lui is currently CEO of OPER Technology Limited. Her biotech startup is widely recognized in both academic and commercial field, winning more than 30 local and international awards.

Dr. Lui was recently chosen as one of the ten MIT Technology Review Innovators Under 35 for Asia Pacific. She was also awarded the Young Achiever of the Year from AMCHAM as well as the Greater Bay Area Young Women Entrepreneur Award.
